**2017 RESURFACING PROJECT**

The Ingham County Road Department plans to rehabilitate and resurface Cedar Street from College Road to Legion Drive (just west of US-127) in Delhi, Alaiedon, and Vevay Townships in 2017.

A drop-in style Public Information Meeting regarding this project will be held Thursday, January 26, 2017, between 4:00 and 6:00 PM, at the Road Department office located at 301 Bush Street, in Mason. No formal presentation is planned at any time. Information regarding the project will be shared in an informal setting. Interested citizens may drop in to the meeting any time between 4:00 and 6:00 PM to meet project staff, view preliminary project plans, and ask questions about the project.

The proposed work includes in-place crushing and recycling of the existing pavement into base material and asphalt resurfacing of the four lane divided highway. Traffic will be maintained with one lane in each direction along the entire project with access maintained at all times to all adjacent properties throughout construction. During construction, traffic will be shifted via temporary cross-overs, to one side of the divided highway, then the other, while the opposing side is recycled and resurfaced.

As part of the project, the various existing median cross-overs will be consolidated into one-way, indirect left turns with deceleration lanes for improved safety. The project will also include paved shoulders and drainage upgrades.

The anticipated project start date is early spring 2017, depending on weather. Completion is expected by early fall 2017.

For more information contact the Road Department at (517) 676-9722.
